Emac® s'engage avec la recherche de nouveaux matériaux plus organiques et naturels. Notre préoccupation pour l'environnement, unie à un intense travail de recherche, ont donné fruit à notre matériel exclusif **MAXI**.

MAXI est un matériau composé de pvc et fibres végétales provenant du recyclage de résidus organiques de l'agriculture. Avec ceci nous fournissons des profilés de très grande qualité pour la céramique.

Noi di **Emac**® siamo impegnati sul fronte della ricerca di nuovi materiali più organici e naturali. La nostra preoccupazione nei confronti dell'ambiente, unita a un intenso lavoro di ricerca, hanno dato vita al nostro materiale esclusivo **MAXI**.

MAXI è un materiale composto di pvc e fibre vegetali provenienti dal riciclaggio di rifiuti organici agricoli. Con esso fabbrichiamo profilati a massima qualità per ceramica.
